

## Bullard Bourke Eyeshield Part Number R309 Installation Instructions

### ⚠ WARNING

**READ ALL INSTRUCTIONS AND WARNINGS BEFORE USING THIS PRODUCT. SAVE THIS MANUAL FOR FUTURE REFERENCE.** This eyeshield does not provide primary eye protection. This eyeshield is not shatterproof and will not protect eyes from harmful rays. Large objects and/or objects travelling at high speeds may break or penetrate this eyeshield and injure the wearer's face or eyes. Additional protection may be required. See ANSI/ISEA Z87.1 for reference. Inspect eyeshield frequently and replace if damaged. Failure to observe these warnings could result in death or serious injury.

### Contents

This Bullard Bourke Eyeshield kit contains 1 Bourke Eyeshield, 2 machine screws, 2 flat washers 2 plastic washers and 2 locking nuts

### Installation

- Step 1: Locate the metal frame so that the mounting holes are approximately 1" from the outside brim edge and the lenses are centered at the front of the helmet.
- Step 2: Mark the two hole locations in the Bourke Eyeshield frame on the underbrim side of the helmet shell.
- Step 3: Drill two holes through the brim with 3/16" drill.
- Step 4: Assemble screws, washers and nuts according to **Figure 1**. Rubber washer is between brim and Bourke.
- Step 5: Hand tighten screws with a Phillips head screw driver to a snug fit. Do not over torque to eliminate possible damage to the helmet shell.

### Cleaning

Clean eyeshield with mild detergent, rinse thoroughly with clean water, and dry with a soft cloth.

### Storage

Store eyeshields in a cool, dry place away from direct sunlight.

### Contamination and Decontamination

Special precautions must be taken if your protective helmet becomes contaminated with chemical or biological hazardous materials. The guidance for these precautions should be coordinated with the appropriate (local, state, and federal) authorities having jurisdiction for hazardous materials (HAZMAT).

Contaminated helmet ensembles should be isolated, contaminate(s) identified, and bodily contact should be avoided. Avoid spreading the contamination to interior spaces of buildings or vehicles, any living quarters, or personal belongings. If possible, seal the contaminated ensemble in a leak proof, sealable, air tight container. Disposal should be done in adherence to local, state, and federal laws. If the helmet is to be reused, it **MUST** be decontaminated before reuse. Decontamination should be performed using procedures established by decontamination professionals that will remove contaminate(s) while minimizing damage or compromise to the helmet. Failure to do so could result in increased risk of injury, illness, disease, or death.

### ⚠ NOTE

Installation of the Bourke Eyeshield, without the use of an NFPA compliant goggle or faceshield, renders the helmet noncompliant to NFPA Standard 1971, 2013 Edition.
